About Me

Educational Background

My three year education in the university

I am currently a third-year student at Addis Ababa University (AAU), pursuing a Bachelor of Science in Software Engineering. My time at AAU has been instrumental in shaping my understanding of key concepts in software development and computer science.

Throughout my studies, I have engaged in a variety of relevant courses that have provided me with a solid foundation in the field. These courses include Data Structures and Algorithms, Database Management Systems, and several programming languages, notably Python and Java. Currently,

In addition to my coursework, I have had the opportunity to work on several practical projects that have reinforced my learning and allowed me to apply theoretical concepts in real-world scenarios. Some of my notable projects include:

- Currency Converter: A Python application that converts various currencies using real-time exchange rates.
- Dormitory Database System: A management system designed to track dormitory resources and efficiently manage resident information.

As I continue my studies, I am excited to further develop my skills and work on more complex projects that contribute to my growth as a software engineer.

Through these projects, I have developed strong technical skills and a passion for software development. My programming expertise includes:

- Python
- Java
- HTML/CSS

My Blog

Welcome to my blog where I share my hobbies, interests, and adventures!

Hobbies and Interests

cooking

I have a passion for cooking. Experimenting in the kitchen is a creative outlet for me. I enjoy trying new recipes and exploring different cuisines.

Spiritual song

Spiritual songs hold a special place in my heart. They provide a sense of peace and connection, often uplifting my spirit and helping me reflect on my life.

Adventures

Adventure in the Wenchi

Date: May 21, 2024

Six months ago, I embarked on an amazing adventure in the Wenchi. The scenery was breathtaking, and I had the chance to explore new hiking trails and enjoy the fresh air. Let me share some highlights from the trip...

Educational Background

My three year education in the university

I am currently a third-year student at Addis Ababa University (AAU), pursuing a Bachelor of Science in Software Engineering. My time at AAU has been instrumental in shaping my understanding of key concepts in software development and computer science.

Throughout my studies, I have engaged in a variety of relevant courses that have provided me with a solid foundation in the field. These courses include Data Structures and Algorithms, Database Management Systems, and several programming languages, notably Python and Java. Currently, I am expanding my knowledge through a course in Web Development, which is enhancing my skills in creating responsive and interactive web applications.

In addition to my coursework, I have had the opportunity to work on several practical projects that have reinforced my learning and allowed me to apply theoretical concepts in real-world scenarios. Some of my notable projects include:

- Currency Converter: A Python application that converts various currencies using real-time exchange rates.
- Dormitory Database System: A management system designed to track dormitory resources and efficiently manage resident information.
- Library Catalog App: An application that helps manage library resources, enabling users to search for and borrow books easily.

Through these projects, I have developed strong technical skills and a passion for software development. My programming expertise includes:

- Python
- Java
- HTML/CSS

As I continue my studies, I am excited to further develop my skills and work on more complex projects that contribute to my growth as a software engineer.

Certificate in Cisco Networking

Institution: Cisco Networking Academy

Description: For completing Cisco Packet Tracer

Certificate in Graphics Design

Institution: Top computer Training Ceter

Description: Graphics Design.
